LUSITANIA HAS ARRIVED LETTEN WAS CAPTURED.

Cunard Liner Beats the Record New Orleans Tax Official Is Across the Atlantic Now In Custody.

BY NEARLY SIX HOURS. FOUNDON BANK OF RIVER

Actual Running Time on the Voyage From Queenstown to Sandy Hook Lightship Is Given as Five Days, One Hour and Thirty Minutes. Makes a Full Statement, In Which He Admits Thile His Intention Was to Drown Himself, Necessary Courage Was Lacking.

New York, Sept. 13.—The steamship Lusitania crossed Sandy Hook bar at 9:03 o'clock Friday. Twenty minutes are usually allowed all steamers to cover the distance from Sandy Hook lightship to the bar. This makes the Lusitania's time of arrival at the lightship 8:43 o'clock. Her time from Daunt's Rocks, off Queenstown, to Sandy Hook lightship, therefore, was 5 days, 1 hour and 30 minutes. This compares with the Lusitania's record of 5 days, 7 hours and 23 minutes for the same course in favor of the Lusitania very materially. Her average speed for the course is computed at 22.87 nautical miles per hour.

While the Lusitania made a new record for the passage from Queenstown to New York, she has not beaten her hour the Kaiser Wilhelm II, which made 23.58 knots, and the Deutschland, whose record is 23.51.

BEATS OWN RECORD.

La Provence Makes Swifter Trip Than She Did on Previous Occasion.

New York, Sept. 13.—Steamer La Provence, which a year ago beat the record from Havre to New York, has done even better. The La Provence completed the run across the long course of 3,140 miles this week in 6 days, 1 hour and 12 minutes. Her previous record for that course was 6 days, 2 hours and 15 minutes.

AUTO SHOT AT.

Wife of Kentucky Governor and Other Ladies Dropped to Bottom.

Owensboro, Ky., Sept. 13.—Dan Burton, a farmer, has been indicted on the charge of having discharged a pistol at an automobile containing Mrs. J. C. W. Beckham, wife of the governor of this state, and a party of friends. Mrs. Beckham, who was an Owensboro girl, was here visiting friends. Farmers in this vicinity have been complaining of the speed on highways, and when the motor containing Mrs. Beckham reached a bridge on a much coveted thoroughfare, a man on horseback demanded that the chauffeur stop. The horseman flourished a pistol over his head and ordered the driver to the automobile to wait several minutes while he denounced the automobiles in bitter terms.

When the machine started he fired several shots, and Mrs. Beckham and the other ladies dropped to the bottom of the car.

HEARST AND PRESIDENCY.

Bryan's Statement in That Connection Received With Interest.

Washington, Sept. 13.—Considerable interest is manifested here in the statement that Hon. W. J. Bryan, while at Oklahoma City, gave it as his opinion that Hon. William Randolph Hearst is making ready to run for the presidency an independent candidate.

Mr. Bryan, says the report, was asked about the underground campaigns of Mr. Hearst for delegates in the central west, and replied that he understood that Mr. Hearst was making one fight inside and another outside the Democratic party. One of Mr. Bryan's traveling companions said Mr. Hearst would draw most of his votes from the Republican party in the middle states and in the northwest.

Bryan has gone to Nebraska for the campaign there, and then will go east to speak in New York, New Jersey, Massachusetts and Connecticut.

FORTY MEN INJURED.

Explosion of Coal Dust at Mouth of Mine Causes Disastrous Results.

Rock Springs, Colo., Sept. 13.—Forty men were injured, twenty seriously by an explosion at the mouth of the third entry to mine No. 10, owned by the Union Pacific Coal company. While the number were injured and badly burned, it is not expected any will die. The explosion was caused by the lamps of miners setting fire to coal dust that had been stirred up by runaway coal cars in their flight down grade after jumping the tracks.

Finds Tooth in Potato.

Peru, Ind., Sept. 13.—Isaac Hildebrand of Mount Etna, Huntington county, grew a potato this year that contains a human tooth. The potato patch was formerly an Indian burying on exhibits in a store window at many skulls and bones. When Mr. Hildebrand dug his potatoes this month he found one from which protruded a human tooth. The freak is on exhibition in a store window at Mount Etna.

Light Frost at Rusk.

Rusk, Tex., Sept. 13.—A light frost fell early Thursday morning in this section.

Makes a Full Statement, In Which He Admits Thile His Intention Was to Drown Himself, Necessary Courage Was Lacking.

New Orleans, Sept. 13.—Charles E. Letten, chief clerk in the office of the first district tax collector here, who disappeared some days ago, leaving a shortage of over \$100,000, was discovered Thursday afternoon standing on the bank of the Mississippi river attempting to summon up courage enough to jump into the water and end his life. He said he had started toward the water several times, but each time his courage had failed him.

He made a full statement of his affairs with the city.

The man who saw Letten standing on the river bank reported his discovery to the police, and when the officers arrived they found Letten seated under an umbrella reading an account of the defalcation in a morning newspaper. He said he had found the sun very hot, and between his efforts to summon courage enough to jump into the river had sat beneath the umbrella and read newspaper accounts of the shortage.

Letten said, when carried before the inspector of police and the grand jury, that he had spent the greater part of the money he had taken on a negro woman who lives in a handsomely furnished house in the old French quarter of the city, and who is said to have bought considerable quantities of real estate. Letten says the greater part of the money he had given her had been invested in realty, only a comparatively small amount being devoted to her living expenses.

According to the last estimate made as to Letten's shortage he was about \$107,000 short in his accounts when he disappeared. During two days, he said, he had been hiding in the weeds along the river while the police of half a dozen southern cities were searching for him.

Virginia Reed, the negress in the case, was arrested and held as a witness. Her will, a copy of which was obtained, showed that she had made provision to give a large amount of money to a church and to an orphanage.

Letten had 82 cents in his possession when arrested.

MAY BE TOO NARROW.

Doubtful if Widest Ships Can Go Through Panama Canal.

Washington, Sept. 13.—The statements of naval officers that when the locks of the Panama canal are completed there is a possibility of their being too narrow to admit of the passage of the largest ships that may be constructed by that time have caused considerable comment in the naval circles and among the government officials generally. It was declared by a naval officer that it was a grievous error for the Panama canal to be constructed at an alleged less width than the Suez. The locks should be at least as wide as the Suez, it is said, to make it possible for American battleships to pass through the isthmus to return by the Suez. This situation would also apply to transportation companies, particularly in case a world circuit should be established, as has been talked of by the North German Lloyd people.

The Suez canal will admit of a ship with a beam 106 feet at the bottom. The width of the Suez varies from 108 to 118 feet, while the six locks of the Panama canal as each to be 100 feet in width. The minimum low water depth of the Suez is only 32.8 feet, whereas the minimum of depth in the Panama canal are each to be 100 feet sequentially, while the locks of the Panama canal are not as wide as the Suez, this waterway will admit of the passage of deeper draught vessels.

Work is already under way on the Suez to increase the minimum depth to 34.4 feet at low water, and reports show that a depth of 32.3 feet already had been attained. The Suez canal is 104 miles in length, while it will be fifty miles from ocean to ocean through the isthmus.

The question of the width of the locks in anticipation of bigger ships was seriously considered by Chief Engineer Stevens more than a year ago. At that time the authorized minimum width of the locks for ninety-five feet and the length 900 feet. The rapid strides in the building of warships of greater length and draught convinced Mr. Stevens that the locks should be increased in size. As the result of a strong appeal to the president they were changed to 100 feet in width and 1,000 feet in length.

Will Not Be Reconvened.

Muskogee, Sept. 13.—Hon. W. H. Murray says the constitutional convention will not be reconvened Monday—the day before the convention—and the document will be voted on just as it stands. He predicts an immense majority both for the constitution and the entire Democratic ticket.

BRYAN, TEXAS, SEPT 14, 1907

Fifteen applications for liquor licenses have been filed since the local option election in Milam county.

Long staple cotton grown as an experiment at Corpus Christi this season proved a success and brought 23c.

The people of this country don't like the samples of Japanese citizenship sent over and will receive no more consignments.

No, Juliet, the Casa Blanca where the Arabs are besieging the French is not the old Wade homestead in Nueces county.

Maj. Huel, chief of the San Antonio weather bureau, is of the opinion that the late norther "broke the back bone of the hot wave," and that lower temperatures will prevail hereafter.

The International Harvester Company will continue to do business in Texas on an interstate basis, but it will have to be on a fair and equitable plan, in competition with other firms.

Times may look a little dubious ahead on account of the short crops and stringency of money matters, but Bryan and Brazos county will continue business at the same old stand, and "we will all hang together like the grapes on the vine" and come out "all right in the end. Let the watchword be upward and onward for a bigger, better and busier Bryan.

Governor Campbell asserts that "there is a studied and well planned scheme engineered by certain politicians in the service of certain corporations, trusts and other selfish interests, to prejudice and array against him every factor heretofore friendly, and they will scruple at nothing to deceive the Confederate veterans and misrepresent his motives." While there is, no doubt, some opposition to Governor Campbell, he seems to be unnecessarily exercised about the threatening centripetal forces of which he supposes himself to be the object.

Bryan is the best cotton market in this section of the state and will continue to enjoy that distinction, whether we have a short crop or a long one. Such a reputation is worth jealously guarding, and in view of the fact that reports are current again this year of other surrounding towns paying more for cotton than Bryan, the Pilot on yesterday investigated a report that one town was paying a cent more than Bryan. It was learned by telephone from a merchant and buyer of that place

that they were paying yesterday 12 1/4 to Bryan's 12 3/8. We were going them an eighth better instead of a cent less.

Hero Hobson is still shrieking for a big navy: "Because of our utterly inadequate navy, our people must be prepared to not only be exceedingly calm and conservative, but to accept any form of humiliation that may come. We have neglected the question of defense so long that we must now 'eat dirt.' Our policy must be to build ships and eat dirt; and we can not stop eating dirt until after the ships are built." If Japan, with all other nations at her back, is going to jump on us "not later than next February," it is too late to build ships. Let's cut and run.

A One Hundred Year club has been organized under the direction of Prof. H. W. Wiley, United States chemist-in-chief the object of which is to promote longevity to what scientists say is the natural limit of human life. Any person not already the victim of an incurable disease may become a member of the club by merely subscribing to and obeying four simple rules of which the following is a summary:

Moderation in diet is the first, gluttony is to be eschewed and late suppers shunned. Exercise should be taken, plenty of it, and in the open air of course; good ventilation in the sleeping apartment both day and night, but especially at night; agreeable society—congenial company keeps the mind in a pleasant state; avoid worry—this is a habit easily cultivated; both mind and body should be given employment—work is as much a necessity as food. There are just six of these rules, and without going through any extravagant initiation or paying any exorbitant membership fee, one may by process of will subscribe to these articles and become a full fledged member of the One Hundred Year club."

FAREWELL TOUR OF THE CLANSMAN COMPANY

The Eagle received yesterday from New Orleans a telegram stating that when the sale of seats for The Clansman farewell engagement at the Tulane theater began, a double line of purchasers three hundred yards long was waiting. So great was the eagerness to secure seats that six special officers found great difficulty in preserving order and at one time the box window had to be shut down and the sale of tickets suspended. This unprecedented interest is due to the announcement that this is The Clansman Company's farewell tour before leaving America for a four year's trip around the world.

The Clansman is booked for Bryan again this season.

LAND SUPPLY EXHAUSTED

Unorganized Counties Will Be Unable to Get Any.

Austin, Sept. 13.—It was disclosed that the unorganized counties in the state will not be able to get any of the land which was set apart for each county in Texas for county school funds for the very good reason that 325 leagues of land set apart for that purpose has been exhausted.

In 1882 the legislature passed an act setting apart 325 leagues of land for county school purposes. Each county that had not already received its quantity was granted four leagues, or 17,712 acres. This was to be used as a permanent school fund for each county in addition to the state's appropriation for school purposes. These 325 leagues, according to Acting Land Commissioner Robison, have just been exhausted. Garza, the county not organized, will not get the full four leagues, and those counties, as stated above, which have not yet organized, will get no land at all for school purposes, as the law provides that the counties shall get the land only after organization.

S. I. Robison of Daingerfield presented to Professor Cousins, state superintendent of public instruction, the appeal case of C. B. Christian against the board of trustees of the public schools of Daingerfield. Mr. Robison represents the appellant. This is a case where the old school board before retiring entered into a contract with Professor Christian to be superintendent of the public schools of Daingerfield. When the new board was elected and took charge of the school affairs it refused to accept Professor Christian as superintendent and elected another teacher to fill the position. Christian has appealed to the state superintendent whether the contract made with Christian by the old board can be set aside and who is the lawful superintendent of the schools of Daingerfield.

NINE NEGROES AT WORK.

Checking Clerks to the Number of Fifty Are Also Out.

Galveston, Sept. 13.—Nine negroes went to work on the Southern Pacific docks Friday morning; they arrived here by a special train from Beaumont with a party of thirty-five. Others refused to work as strikebreakers, not knowing a strike was on. It is alleged the negroes were told they would be taken to New Orleans, but kept on train under guard of shotguns and rushed in here. Strikers took charge of all but the nine and escorted them up town.

Another serious break occurred at 10 o'clock, when checking clerks, numbering fifty, quit work on account of negroes being employed on the docks. This practically ties up everything, as only experienced men can handle that part of the business.

Sundeman & Dolson refuse to state what steps will be taken to get men though it is anticipated they will attempt to secure negroes over the south. In the meantime three ships have arrived in port loaded with big cargoes of fast express and freight to San Francisco and other points. Several carloads of lemons are rotting in the ships. Other perishable cargo cannot be reached. So far no violence whatever has taken place.

PROHIBITION TOY.

It is a Perfect Imitation of a Man on a Jag.

Macon, Ga., Sept. 13.—A prohibition toy has found its way in the market.

It is a key-winding toy, the figure of a man with a smashed high hat. In one hand he holds a bottle and in the other hand a glass. When wound up it reels about the floor or sidewalk, shakily filling the glass from the bottle and as shakily drinking. It is a perfect imitation of a drunken man.

On the sidewalk on Broadway in New York, under the shadow of old Trinity, or on the broader sidewalk on Twenty-third street, are toy peddlers, with the newest thing in the way of key-winding toys. A son of T. J. Bishop, an engineer of engine company No. 1, saw this toy, and thinking it appropriate, now that Georgia has gone dry, sent it to his father.

ONION SHIPMENTS.

Seven Hundred and Forty-Two Cars Sent This Season From Texas.

San Antonio, Sept. 13.—The report of the Texas Truck Growers' association shows that a total of 356,964 crates of onions, amounting to 742 cars, were shipped from Texas this year. The gross receipts were \$647,271.38, and the net returns to the growers, less all charges, \$478,234.69. The acreage was about 6,000, an increase of 25 per cent over last year. While this year's crop was 12,000 crates less than last year, yet the crop paid the growers more than twice as much.

BAREFOOTED BURGLAR BUSY.

Rifle's Man's Trousers, Steals Horse and Rides to Railroad Station.

Paris, Tex., Sept. 13.—The residence of E. D. Campbell, near Paris, was burglarized at 2 o'clock Friday morning. The door was prized open by a barefooted burglar. The trousers of Mr. Campbell were taken on the back porch and rifled. A purse and other articles were taken. Leaving Campbell's residence the burglar went into several other houses, attempted to steal horses from three barns, but only secured one, and officers were so closely in pursuit that he abandoned it at Atlas, on the Texas Midland railway took a southbound train.

Further Arrests Made.

Coblenz, Prussia, Sept. 13.—Further arrests in connection with betrayal of military secrets have been made.

DEATH OF MRS. W. S. MARTIN.

After a lengthy illness Mrs. Lula Martin, wife of Mr. W. S. Martin, died at the family home in this city yesterday morning at 9:00 o'clock. Mrs. Martin was 43 years old, and had resided in Brazos county many years and a number of years in Bryan. She was greatly beloved by the family and friends, and while her life had been despaired of for several days, the blow falls no less heavily upon devoted hearts.

Mrs. Martin leaves her husband and six children, four boys and six girls, a brother, Luther Hall of Trinity, and other relatives. She was a devoted member of the Methodist church. The funeral will be held this morning at 8:00 o'clock with interment following at 10:30 o'clock at Alexander cemetery. Dr. I. F. Betts will conduct the service.

CHERRY BURL CAUGHT ON THE FLY.

Sheriff R. M. Nall has received a telegram from Deputy Sheriff J. D. Conlee announcing that he has Cherry Burl, one of the negroes who escaped from the jail here Sunday night, safely behind the bars at Atoka, Ind. Ter. Sheriff Nall made application for requisition papers, and at the same time wired Deputy Sheriff Conlee to bring the prisoner on without the papers if he could. The officers are to be congratulated on this neat piece of work, which leaves only one of the negroes who escaped by the jail delivery at large. This is Ed Parker, who will no doubt be caught at an early date.

DEATH OF MRS. B. G. BOND.

Mrs. Ben G. Bond died at her home in the Providence community Thursday night after an extended illness. Mrs. Bond was about thirty-eight years old and leaves her husband and six children, other relatives and many friends to mourn her loss.

Mrs. Bond was reared in Brazos county and was a member of the Methodist church and a lady of noble christian character. Her remains were laid to rest at the Kaiser burying ground yesterday afternoon, Dr. I. F. Betts of this city conducting the funeral service.

CHRIST OUR FRIEND

Will be the subject of Jas. A. Challenner, the Christian minister, at the court house tomorrow at 11 a. m. Mrs. C. L. Hilger will sing a solo at this service. Unless the lights come on there will not be any evening service. Bible school at 9:45 a. m., J. J. Ray, superintendent.

METHODIST CHURCH SERVICES.

Dr. I. F. Betts, the pastor, announces Sunday services at the First Methodist church as follows: Sunday school 9:45. Preaching by the pastor at 11 a. m. and 8 p. m. Rosebuds at 4 p. m. All are invited to attend these services, especially students who are here attending the schools.

TO THE LUMBER TRADE

We manufacture our own stock and give you the benefit of the middle-man's profit, consequently we are selling Lumber now in Bryan at less than the Wholesalers are offering the same material to the retail dealers. We want your Lumber trade and guarantee to save you from 10 to 25 per cent on any Lumber order placed with us. Ask some of our customers.

Our new Gin is the most complete in Central Texas and we want to do your ginning. We buy Cotton either in the seed or in the bale.

Yesterday our price was 14 3/4 for middling against 12 3/4 offered by the buyers of the city. This means \$5.00 cash to you, so why not come and get the price you deserve for your product.

We guarantee the highest market price during the entire season, and urge you to investigate the Round Bale price as compared with the common square bale BEFORE YOU GIN.

We want your trade and guarantee the best prices and satisfactory service.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. With out that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Heart Strength

Heart strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—usually needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen those nerves—re-establish them as needed, with

on Colds.

Best to prove merit—to show you how quickly Preventives can and will check colds or the Grippe—I will mail you free on request these samples and my book. Simply address—Dr. Shoop, Racine, Wis. Preventives are thoroughly harmless little "Candy Cold Cure" tablets. No Quinine, no exsiccative, nothing sickening whatever. To check early Colds or Grippe with "Preventives" means sure defeat for Pneumonia. To stop a cold with Preventives is surely safer than to let it run and be obliged to cure it afterward. Preventives will however reach a deeply seated cold. But taken early—at the sneeze stage—they break or lead off these early colds. That is surely better—that is why they are named "Preventives." Promptness, however, is all-important. Promptness in the use of Preventives may save half your usual sickness. Feverishness, night or day, with child or adult, suggests the need of Preventives. Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will soothe the distressed limbs of chronic cripples, nor turn away from the back to death again. That is impossible. But I can now surely kill the pains and purge of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without this last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I have found the cure for this horrible disease. I have found the cure for this horrible disease. I have found the cure for this horrible disease.

DECREE FOR DEAD.

Unusual Petition Presented in Pittsburg Court.

Pittsburg, Sept. 13.—Children asking for a divorce decree for their mother several months after her death, and some years after she is alleged to have been allowed the decree, were features of a somewhat unusual petition filed in common pleas court No. 1.

The request is that the decree awarded Mrs. Hanna Cretz against her husband, Peter J. Cretz, several years ago, be handed down as of March 10, 1907. Mrs. Cretz died May 4 last. The divorce decree, which she is said to have been allowed in 1900, had never been taken out. A son paid the verdict fee in the case last month.

It is recited in the petition of the children that their father married another woman, after being divorced from his former wife, although the decree had not been taken out. A rule was granted on Cretz returnable on Sept. 28.

LEVEE WORK CEASES.

Port of New Orleans Is Effectually Tied Up by Strike.

New Orleans, Sept. 13.—The port of New Orleans is effectively tied up with the levee strike, save for one ship that is attempting to load cargo with its crew.

The longshoremen and screwmen refused to attend the general conference of steamship agents, stevedores and Commercial Exchange representatives.

It was finally agreed by the conference of the agents and exchanges that the latter should immediately investigate the labor demands. If they find the agents can afford to meet them, they will be urged to do so. If, on the other hand, the commercial bodies are satisfied that they cannot, then they will be advised to stand firm against the union's demands, and the whole commercial community of New Orleans will be behind them.

CHASE INTO RIVER.

Cattle Compel a Policeman to Do This to Save Being Run Down.

Evansville, Sept. 13.—A drove of fifty cattle unloaded from the steamer John S. Hopkins, plying between here and Paducah, Ky., created havoc in Sunset park, the prettiest park in the city, by overturning seats, ruining shade trees and chasing pleasure seekers in all directions. A telephone call for the police was turned in, and Bicycle Officers Freidie and Saum speeded to the park. The cattle saw the red lights on their wheels and made a rush for them. Saum took refuge under a park seat, while Freidie was chased into the river, but managed to swim ashore. A dozen cattle drovers finally corralled the cattle and sent them to the stockyards.

SENT SUGGESTIVE CARD.

Is Reply Young Husband's Father Tel- egraphed His Forgiveness.

Pittsburg, Sept. 13.—An epidemic of elopements has broken loose in this community, and the Ohio Gretna Greens are working overtime. The latest couple to skip out from the Smoky City was James H. Pritchard, aged nineteen, son of a prominent musician and a preceptor in several of the Masonic lodges. The girl who went with him was Alice Hyles, also aged nineteen, of No. 93 Norton avenue.

After they had been married at Youngstown, O., the boy sent a comic postal card to his father, illustrating a lad across his father's knee, being well with a shingle. The card bore the following appeal:

"My Dear Old Dad: When can I come home?"

Papa Pritchard telegraphed his forgiveness.

ELECTRIC SLEEP.

Wonderful Discovery Claimed by a French Medical Professor.

New York, Sept. 13.—Professor Leduc of the School of Medicine at Nantes, France, has discovered a method of causing electric sleep, says a Paris dispatch to the Times. It is claimed for the discovery that it will replace chloroform and other anesthetics in all surgical operations. The discovery proceeded from a study of effects of intermittent currents and from a knowledge that the skull and brains offer but little resistance to the current. The application of the current on the head is not dangerous and there are no ill effects, even when an experiment lasts for hours.

DIES FROM INJURIES.

They Were Inflicted by the Lover of the Woman.

Reading, Pa., Sept. 13.—Mrs. Gertrude A. Clinton, wife of James Clinton, from whom she was separated, died Friday from injuries inflicted by Frank Palmer, her lover. The woman ran half a square with blood flowing from a cut in her throat, until she fell exhausted. She was thirty years old and Palmer thirty-six. They have been living together until recently, but the woman left Palmer and he jilted her because he believed she was about to become reconciled with her husband.

TO TEST LIQUOR LAW.

This Course Decided Upon by San Antonio Saloonists.

San Antonio, Sept. 13.—As a result of filing 300 affidavits here against the saloon men for operating without a license a test case will be made to determine whether or not the Baskin-McGregor law could constitutionally cancel the old licenses before they expired.

The liquor dealers against whom the affidavits were made will deposit to the credit of the county collector \$30,000, the amount of the license tax, which will revert at once to the state in case the test case goes against the liquor men.

In case the liquor men win they will reclaim the money. This was agreed to by Assistant Attorney General Polard, R. H. Ward, representing the saloon men, and County Attorney Newton. This will enable the saloons to continue in business pending the decision of the test case.

"GAL IN THE FOUNTAIN"

Probably Will Be Set Up in New Hotel Bar at Dallas.

Atlanta, Sept. 13.—The famous "Gal in the Fountain" of the Piedmont hotel bar, which played an interesting part in recent Georgia politics, will in all probability go to Texas and have future headquarters at Dallas.

A Mr. West of Dallas, who recently built a hotel there, is now negotiating for the purchase of the "Gal" and proposes to set her up in the new hotel bar in Dallas. While the deal has not been finally closed, Mr. West has asked George W. Parrott, one of the owners of the Piedmont, to quote him a price on this interesting and famous art object, stating that he is anxious to secure her. Mr. West, it is stated, is anxious to procure the "Gal" as much for the advertising she has had as for her artistic loveliness. She will no doubt become an object of great interest in the metropolis of the Lone Star state.

Since the enactment of the state prohibition law the "Gal" has been draped in black. On one occasion during the session of the legislature four well known prohibition leaders—

seas Wrights of Floyd, Senator Harman of Commerce, Senator Knight of Nashville and Mr. Covington of Colquitt were dined together at the hotel, and expressed a desire, out of curiosity, to see the famous "Gal." A friend took them to the bar through the back door, and for some moments they gazed upon her fair form.

NEGRO SCHOOL BURNS.

Largest Institution of the Kind in Houston Is Destroyed.

Houston, Sept. 13.—The Douglas colored school, corner of Jackson and Calhoun streets, was destroyed by fire. This was the largest institution of learning in the city for colored children, and was a large three-story frame building. It had recently been repaired by the city at considerable expense, and its destruction leaves the city school authorities without adequate facilities providing instruction for the colored enrollment.

The building, furniture and various school paraphernalia were almost a total loss. The entire damage is estimated by Chief O'Leary to amount to \$15,000. The city is protected by insurance.

TABLES UNSCREWED.

How Captain McDonald Put a Stop to Saloon Pool Playing.

San Antonio, Sept. 13.—Captain Bill McDonald, state revenue agent, has found an effective way of stopping the playing of pool in saloons. This is a direct violation of the new liquor law. He went into a saloon on North Flores street and found five pool and billiard tables running full blast. Without a word he took a screwdriver from his pocket and unscrewed a side from each table, thus putting them out of commission. After he had completed the work of putting the tables out of commission he quietly walked out of the room.

Head Almost Blown Off.

Runnels, Tex., Sept. 13.—While F. F. Pierce of Winters, this county, was traveling overland with his wife and two children his shotgun was accidentally discharged. Mr. Pierce's head was nearly blown off.
